Education

University of Pennsylvania

B.S.E. in Computer Science, GPA: 3.72/4.00

Philadelphia, PA

May 2022

- **Minors:** Statistics [Wharton] & Engineering Entrepreneurship
- **Coursework:** Big Data Analytics, Software Engineering, Databases, Algorithms, Computer Architecture, Probability
- **Clubs:** Penn Computer Science Society (Sponsorship and Jobs Committee)

Experience

LinkedIn

Incoming UI Engineer Intern

Sunnyvale, CA

Summer 2020

- LinkedIn Sales Solutions: Notifications Team

CIS 502 (Analysis of Algorithms)

Teaching Assistant

Philadelphia, PA

Jan 2019 - Present

- Host weekly office hours; grade homeworks and exams

Multifamily Asset Managers

Software Engineering Intern

Bethesda, MD

May 2019 - Aug 2019

- Architected multiple property management features along with CRUD REST APIs in React and .NET
- Created advanced form builder component in React, greatly increasing development speed and maintainability
- Converted pages from jQuery to React and refactored backend to fetch data more efficiently, decreasing page load times by more than half
- React, Javascript, .NET, C#, SQL

University of Pennsylvania

Web Developer

Philadelphia, PA

Apr 2019 - Jan 2020

- Developed and designed an interactive course selection web app called "Pathways" for Penn's History Department
- Worked with another developer to build out full functionality, including a Pinterest style layout, filtering animations, a course visualization network, and site walkthrough capabilities
- React, Redux, Javascript, D3.js

Koros

Software Engineer

Philadelphia, PA

Oct 2018 - March 2019

- Assisted development of mobile app for home entertainment startup
- Built the login/registration pipeline with Node.js and React Native
- Developed pin code authenticator using the phone's camera and Google's Vision API
- React Native, Node.js, Javascript, MySQL

Projects

Pathways

React | Redux | D3.js

github.com/pathways

- Pathways is a full-fledged course selection web app developed for Penn's History department intended for Penn students
- Built site from scratch using React with aforementioned features, ensuring cross browser and mobile support

Shared Paper

React Native | Node.js | Socket.io | MongoDB

github.com/shared-paper

- Shared Paper is a note taking app developed at Bitcamp 2019 which allows multiple users to take notes together in real time
- Architected entire React Native mobile app with full featured drawing canvas, users support, and document sharing
- Spearheaded group of 4 developers to integrate mobile app with backend, using Socket.io for real time updates

Penn Course Scheduler

React | Node.js

github.com/penn-course-scheduler

- Penn Course Scheduler is web app that allows Penn students to see all possible schedules for the courses they want to take
- Implemented Node.js API to perform a depth first search traversal and return all valid schedules without overlap
- Created minimalistic UI to search and display schedules with React

Skills

- **Languages:** Javascript, Python, Java, C/C++, C#, HTML/CSS
- **Technologies:** React, Node.js, Flask, .NET, MongoDB, SQL, Git
